User Experience Designer

Enhance Product Accessibility | Increase User Satisfaction with Research Driven Design Solutions

User-centered UX Designer with a strong foundation in **visual design, front-end development, and accessibility**. Skilled in designing **intuitive digital products** and **scalable design systems** that **improve usability**, support strategic objectives, and **solve real-world problems**.

Experienced in translating **complex requirements** into **clear, inclusive interfaces** through **research-driven insights** and close **collaboration** with **cross-functional teams**. Proven ability to **enhance engagement**, **streamline workflows**, and deliver thoughtful, **accessible solutions** across the **full UX lifecycle**.

User-Centered Design | Wireframing & Prototyping | Design Systems | Usability Testing | Information Architecture | UX Writing | Journey Mapping | Heatmapping | Agile Development | Cross-Functional Collaboration

Technical Skills & Qualifications

Software & Tools	Figma, Canva, Sketch, Zeplin, Adobe Suite, Jira, Miro, UserZoom, Optimal Workshop, Generative AI
Design & Technology	CSS, HTML, JavaScript, Material UI, Apple HIG, WCAG Accessibility Standards
Certifications	Accessibility-First Design, 2023; Developing for Web Performance, 2024

Professional Experience

PPL Corporation | Allentown, PA | Remote
UX Design Intern

Jan 2024 – Present

Support the UX design and execution of digital experiences for a **large-scale utility company**. Collaborate with senior designers and cross-functional teams to enhance usability, maintain design consistency, and deliver scalable, user-centered solutions.

- **Enhanced a large-scale utility platform** by creating and documenting scalable **Figma components, variables**, and **tokens** for an **Enterprise Design System**—improving accessibility and visual consistency across multiple brands.
- **Strengthened design execution** by collaborating closely with senior designers across teams, contributing to UI/UX decisions, and supporting key deliverables such as **user flows, wireframes**, and interactive **prototypes**.
- **Enhanced user testing and streamlined design handoffs**, creating fully interactive high-fidelity prototypes using **Figma Smart Animate**, effectively showcasing intended functionality and **user flows**.
- **Improved stakeholder engagement and design alignment** by supporting product managers in planning and facilitating user workshops and internal events.
- **Optimized workflow** by researching emerging design tools and proposing **Figma plugin** adoption to improve team efficiency.

PETTER | Orlando, FL
UX Designer & Graphic Designer

Aug 2023 – May 2025

Worked on a cross-functional design team to design and **develop a mobile app** through user-centered design practices, research, and iterative collaboration.

- **Enhanced brand identity and user experience** by designing a distinctive app logo in **Adobe Illustrator**.
- **Strengthened the app's design consistency and efficiency** by collaborating with a team to develop a comprehensive **design system**.
- **Improved the app's alignment with user needs** by leading research and **usability testing** sessions, gathering insights, and directly informing design decisions.
- **Enhanced accessibility and ease of use** by designing an intuitive interface in **Figma**, resulting in a seamless navigation experience for diverse users.

- **Accelerated product delivery** by actively contributing to an **agile environment**, aligning design decisions with development timelines through sprint planning, daily stand-up meetings, and iterative **design reviews**.

Aesthetic Design Alliance | New York, NY | Remote
Product Designer & Developer

Jun 2024 – Jul 2024

Designed and developed a fully branded **company website**. **Led front-end development** and collaborated with stakeholders to deliver a user experience aligned with business goals. Contributed to brand strategy, visual identity, and ongoing optimization to support long-term engagement and growth.

- **Strengthened the company's online presence** by designing and developing a **fully branded website**, distinctive logo, cohesive color palette, and established brand identity.
- **Enhanced client engagement** by designing a compelling website in **Figma**, ensuring alignment with the company's business goals.
- **Improved cross-device usability and performance** by leading front-end development with **HTML, CSS, and JavaScript**, delivering a responsive, accessible user experience that met modern web standards.
- **Optimized and maintained the website** to improve performance, ensure content accuracy, and reinforce brand consistency, contributing to sustained **user engagement** and long-term business growth.
- **Improved project outcomes and stakeholder alignment** by leading design presentations and client-facing meetings during key stages of the development cycle.

Academic Involvement & Projects

Girls Who Code | Orlando College Loop | Orlando, FL
Graphic Designer

Sep 2023 – May 2025

- **Advanced the club's mission** to close the gender gap in STEM by organizing impactful events and **creating digital content** that increased awareness and participation across campus.
- **Enhanced club visibility and engagement 80%** by designing compelling **visual content for social media, presentations, and marketing campaigns**.
- **Improved brand consistency** and outreach by collaborating with the marketing team to align designs with national GWC branding, leading to increased event attendance and digital engagement.
- **Enhanced visual storytelling** by creating polished, informative content using **Canva, Adobe Photoshop, and Illustrator** to support campaigns and drive awareness.

H2Hacks | Hackathon | Brooklyn, NY
Designer & Front-end Developer

Sep 2019

- **Led the team to a 'Best Hacks' nomination** by applying quick problem-solving and effective collaboration in a fast-paced, high-pressure environment.
- **Led the design and front-end development of a dynamic website** using **HTML** and **CSS**, delivering a visually engaging and user-friendly interface contributing to an award-winning digital product.
- **Enhanced team performance** by contributing to developing an interactive game during an intensive 12-hour event, driving rapid ideation and execution.
